Introduction

AXELOS - 2015 is set to be a year of growth, portfolio expansion and community engagement

AXELOS had a busy first year in 2014, which focused on building a foundation for growth and listening to our community, to understand the market and explore the opportunities to develop our Global Best Practice Portfolio.

2015 is set to be a year of growth for us and we are already seeing strong signs of this in the first two months of the year. In response to the community feedback, we are expanding the portfolio, which will include the launch of both PRINCE2® Agile and our new Cyber Resilience Best Practice Portfolio in the early part of H2. In addition to this, there will also be more whitepapers and case studies developed to support the application of our products including ITIL®.

AXELOS will also be focusing on ensuring the ongoing effectiveness of our community and their application of Global Best Practice, through the launch of our Continuing Professional Development (CPD) programme in Q2 and also with the recent launch of our online community on AXELOS.com

We continue to invest in our Global Partner Programme, which supports our global network of over 1000 accredited partners and gives them access to a range of market planning tools, thought leadership and co-funded marketing activity.

AXELOS would like to thank all our stakeholders who helped contribute to a successful 2014, and we look forward to continuing to work with you as we grow the community and portfolio of Global Best Practice in 2015.

Full Year, 2014 - Consolidated Regional Exam Figures

The table below provides AXELOS Full Year, 2014 - consolidated regional exam figures.

		Quarterly			Full Year ("FY")		
		Q4	Q4	Q4 Var	FY	FY	FY Var
		2013	2014	%	2013	2014	%
